Enthusiastic frontend developer seeking an opportunity to leverage my skills in HTML, CSS, Tailwind CSS, and React.js, Next.js. Passionate about creating visually appealing, responsive, and user-friendly applications. Looking to gain hands-on experience and contribute to impactful projects.

Projects

Medical Appointment Booking Website

[Live Preview Link](#) [Github Link](#)

- **Frontend:** React.js with Vite for a fast development environment and optimized build. Tailwind CSS is used for responsive and modern UI styling.
- **Backend:** Express.js to handle server-side logic and route management. MongoDB serves as the database for storing doctor profiles, availability, and user appointment data.

Edu-Nuts

[Live Preview Link](#) [Github Link](#)

- **Frontend:** Built with Next.js for server-side rendering and optimized performance. NextUI and Tailwind CSS are used for modern, responsive UI components.
- **Authentication:** Provides secure Authentication, seamless user authentication and account management.

Cash Book Landing Page

[Live Preview Link](#) [Github Link](#)

- **Frontend:** Built with Next.js for server-side rendering and optimized performance. ChakraUi and Tailwind CSS are used for modern, responsive UI components.
- **Authentication:** Firebase provides secure, seamless user authentication and account management.
